

Sinclair Broadcast Group's recent actions have illustrated the dangers to localism caused by media consolidation.

I am tired of turning on the news and hearing all about Bush the hero during this presidential election. Sinclair is controlling the news and telling their news shows what they can and can't report. I am tired of being fed propoganda.

Sinclair is a republican party mouthpeice. Liberals get bashed all the time and are made to look stupid and inept in the public eye. If one liberal is on a talk show, then they make sure to put two conservatives on. The republican party is always made out to be the party that is supported by the experts, and the liberal party is only supported by nuts and poor people.

TV should not belong to a few rich men who could care less about my community. I want people in my community to control what is put on the TV. I want people who are fair and not biased to make the news. I am tired of having to feel angry because of the unfair treatment Democrats receive. This country is being bought and our democracy is dying because the FCC is not doing anything to stop giants like Sinclair from spreading their agenda.
